

# Tool Spider™

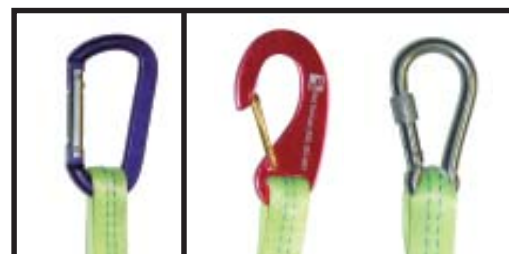

## TS 18/30

At Bairstow, we developed a new product to add to our fall-arrest product line. The **Tool Spider** was designed to satisfy the need for elastic lanyards and to help reduce the frequency of dropped tools and worker injuries.

The **Tool Spider** is elastic and attaches to a harness or waist-belt. This allows easy mobility and flexibility when reaching out with hand tools. The tool spider has a maximum safe working capacity of 15 pounds.

- Restrains Hand & Heavy Tools
- Elastic Tether
- Attaches at Waist Belt or Harness
- Safe Working Load of 15 lbs.
- Aluminum Carabiner Included
- US Patent No. 6,776,317
- Optional Carabiners and Colors
